Exploratory UX Research
Usability Testing
Wireframing
Lo-fi & Hi-fi Prototyping
Information Architecture
Personas & Journeys
Co-creation

TOOLS

Figma · Miro
Adobe Creative Suite
HTML, CSS & JavaScript

PROFILE

CMD graduate and UX/UI designer who enjoys starting from an open problem. I use exploratory research to understand users, turn insights into lo-fi and hi-fi prototypes in Figma, and test them with real users. My HTML, CSS & JavaScript knowledge helps me collaborate closely with developers.

WORK EXPERIENCE

Antea Group | Graduation Internship UX Designer
Feb 2026 – Jun 2026
Turned an open question into a clear design problem through interviews and observation. Facilitated a co-creation session with stakeholders, then designed and tested an interactive prototype for colleagues and clients.

Centraal Beheer | UX Shadowing Internship
Sep 2024 – Jan 2025
Shadowed a professional UX team and gained insight into design work and collaboration within an organisation.

Pathé | Service Employee
2021 – present
Customer service in a fast-paced team.

EDUCATION

HAN | Communication & Multimedia Design
2022 – 2026
Focus on UX/UI design and user research. Projects include a redesign of VGZ's exercise app for people aged 65+.

HAN | Minor Scripting for Designers
Sep 2025 – Jan 2026
Deepened my technical knowledge to better connect design and development.
